1. Coverage Overview

Policy Construct

Meridian Technologies provides a Group Mediclaim Insurance Policy (GMC) for all confirmed employees and their dependents, underwritten by a leading general insurer empanelled annually.

The policy is administered through a Third Party Administrator (TPA) appointed by the insurer. The TPA manages claim intimation, pre-authorisation, network hospital coordination, and final claim settlement.

Policy Term

Coverage commences from the date of confirmation and continues for as long as the employee is on the active payroll of the company.

The policy term runs annually from 1 April to 31 March. Renewal is automatic for active employees and does not require any action on the part of the employee.

Cost

The cost of the base policy is fully borne by the company for the employee and the enrolled base dependents. Optional top-up and parental cover are at the employee's cost through monthly payroll deduction.

2. Eligibility

Who is Covered

All confirmed permanent employees of Meridian Technologies are automatically enrolled. Probationers are eligible from the first day of confirmation.

Eligibility starts from the date of confirmation and ceases on the last working day of the employee. Continuity of cover post separation is not provided by the company but may be arranged by the employee directly with the insurer.

Who is Not Covered

Contract employees, consultants, and interns are not covered under this policy.

Such workforce categories may be covered under their respective engagement contracts or independent insurance arrangements as agreed with the engaging vendor.

3. Sum Insured and Family Floater

Base Sum Insured

The Sum Insured is Rs. 3,00,000 per family on a floater basis. The same sum insured is shared across all dependents enrolled by the employee.

Floater means that the entire sum insured is available to any one or any combination of insured members during the policy year, up to the policy ceiling.

Top-up Cover

Top-up cover of an additional Rs. 5,00,000 is available at a subsidised employee-paid premium, opted during the enrollment window in April each year.

The top-up triggers once the base sum insured is exhausted in a policy year and does not have any separate sub-limits unless explicitly stated.

4. Dependents Covered

Eligible Dependents

An employee may enroll a maximum of 2 dependents under the base policy, in addition to themselves. Eligible dependents are: spouse and up to 2 children (natural or legally adopted).

The number 2 in this clause refers to dependents in addition to the employee. The total insured headcount on the base policy is therefore the employee plus up to 2 dependents.

Parental Cover

Parents and parents-in-law are not covered under the base policy but may be enrolled under the optional Parental Cover plan at the employee's expense.

Parental Cover is offered through the same insurer with a separate sum insured and a separate set of terms; details are circulated during the annual enrollment window.

Age Limits for Children

Children are covered up to the age of 25 or until they start earning, whichever is earlier.

Differently-abled dependent children may be covered beyond 25 years subject to medical documentation accepted by the insurer.

5. Inclusions

In-patient Hospitalisation

Inpatient hospitalisation expenses (room rent, ICU charges, doctor fees, surgery, diagnostic tests, medicines) for any treatment requiring a minimum of 24 hours of hospitalisation.

Room rent is capped at the standard single occupancy room of the hospital up to 1 percent of the sum insured per day; ICU is capped at 2 percent.

Day-care and Ambulance

Day-care procedures listed by the insurer (cataract, dialysis, chemotherapy, lithotripsy, etc.) are covered even if hospitalisation is less than 24 hours.

Ambulance charges up to Rs. 2,000 per hospitalisation event.

6. Exclusions

Common Exclusions

Cosmetic surgery, dental treatment (unless arising from accidental injury), refractive errors, vaccinations (except post bite), congenital external diseases, and self-inflicted injuries.

Treatments arising from substance abuse, war or warlike operations, and participation in adventure sports are excluded unless specifically endorsed by the insurer.

Geographical Exclusions

Treatment outside India is not covered unless the employee was on an authorised business travel and the hospitalisation directly arose during that travel.

Where business travel cover applies, the employee must produce the approved travel order and the supporting medical records for the hospitalisation event.

7. Claim Procedure

Available Modes

Two modes of claim are available: Cashless at network hospitals and Reimbursement at non-network hospitals.

Cashless is the preferred mode for planned hospitalisations as it minimises out-of-pocket expense for the employee.

Intimation Timelines

All claims must be intimated to the TPA helpline within 24 hours of hospitalisation (planned) or 48 hours (emergency).

Failure to intimate within the stipulated timeline may result in claim denial; in genuine cases of delay the employee should provide a written explanation to the TPA.

8. Cashless Hospitalisation

Planned Admissions

Cashless requests for planned hospitalisation must be submitted to the TPA at least 3 working days in advance with the prescription, estimate, and pre-authorisation form.

The TPA responds with the approved amount typically within 24 hours of receiving a complete request.

Emergency Admissions

Cashless requests for emergency hospitalisation must be filed within 48 hours of admission, supported by the doctor's certificate.

Where cashless is not feasible at the time of admission (for example, at a non-network hospital), the employee may convert the case to reimbursement after discharge.

9. Maternity Cover

Benefit and Sub-limits

Maternity benefit is included in the base policy with a sub-limit of Rs. 50,000 for normal delivery and Rs. 75,000 for caesarean section.

Pre and post natal expenses related to the delivery are included within the sub-limit and not paid separately.

Eligibility

Maternity is covered for the first 2 living children only. A waiting period of 9 months from the policy inception date applies, except for new joiners where coverage is from date of confirmation.

New-born baby is automatically covered from day one within the family floater for the remainder of the policy year.

10. Pre and Post Hospitalisation***Coverage Period***

Pre-hospitalisation expenses are covered for 30 days prior to admission, and post-hospitalisation expenses are covered for 60 days post discharge, provided they are related to the same ailment.

Diagnostic tests, consultations, and medicines are typical eligible expenses under this clause.

Documentation

Original receipts, discharge summary, and the doctor's prescription must be submitted within 45 days of discharge for reimbursement claims.

Bills must clearly identify the patient name, treatment, and date of service. Photocopies are accepted only where the originals have been submitted to another insurer in case of split claims.
